

Natural Repellant For Cockroaches, House Flies, Mosquitoes & Lizards

Methods of using Aromatic Oils for Domestic Purpose

1. Add 5 ml of aromatic oil to 1 Liter of Phenyl or 2 drops of aromatic oil to 1 liter of water and mop the floor, thereby reducing cockroaches, mosquitoes and house flies in your entire home.
2. Take a piece of chalk or a cotton swab, dip it in the oil and put a line across the corners of your wardrobe and kitchen shelves, thereby reducing cockroaches in the kitchen shelves and wardrobes.
3. Put 2 to 3 drops of oil in aromatic oil diffuser, hence works as mosquito repellant and room freshener.
4. Take a mug of warm water, add 4 to 5 drops of the oil and keep it in one corner of your room, thereby working as mosquito repellant in the night.
5. Add a drop of oil to the carbon stick of liquid vapouriser bottle; it works as a room freshener and mosquito repellant.
6. Add 2 to 3 drops of oil on the soft portion of your car perfume once it is exhausted, there by it will work as a car perfume and mosquito repellant.
7. Add a drop of the oil to the water of a water cooler, thereby working as a room freshener and mosquito repellant.
8. Add 2 to 3 drops of oil to one spoon of your detergent and then wash your bed sheets, curtains and clothes. It will give a nice fragrance in your bed sheets, curtains and clothes. It also reduces silver fish in your bed sheets when you store them.
9. Add a drop of oil to the wax of your candles, it will give a nice fragrance in your home during Diwali and Christmas, it also works as a mosquito repellant.
10. Add 1 to 2 drops of oil to a mug of luke warm water and wash your face; it gives instant freshness to you.
11. Add 4 to 5 drops of oil to a bucket of luke warm water and have a shower; it gives nice fragrance and reduces your body odour.
12. Dip the incense sticks in the oil and later burn it; they work as a room freshener and mosquito repellant.
13. Put some drops of the oil on mosquito coil and burn it, it gives a nice fragrance.
14. Add 8 to 10 drops of oil in one liter of water and spray it in your garden or on the plants, mosquitoes are drastically reduced. Increase the content of the oil depending upon the area and intensity of mosquitoes.
15. Add 5 ml of aromatic oil to 1 liter of water and spray in on the top of your walls. It works as a mosquito repellant and room freshener. It is also very useful to repel lizards.
